### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

This is the third office action for application serial number 10/629,455, Trivet, filed on July 29, 2003.

### *Claim Objections*

Claim 1 is objected to because of the following informalities: "at let one of said surfaces" should read -at least one of said surfaces-. Appropriate correction is required.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 3, and 4 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,726,190 B2 to Malpass et al. The present invention reads on Malpass as follows: Malpass teaches a body (20) having opposite surfaces and formed of thermal insulating material having at least one opening (30) extending there through. The opening is defined by a wall having a height corresponding to the thickness of the body at the opening. The opening is encircled by an upstanding reinforcing flange (14) forming part of the body and extends beyond at least one of the surfaces and has an internal bore extending in prolongation of the wall. At least one of the surfaces has a plurality of spaced apart projections (26) of substantially uniform height. The projections enable the

Art Unit: 3632

one surface to be spaced above a support on which the body is placed. The bore and the opening are coextensive in cross-sectional area. The wall of the opening and the bore are smooth.

***Allowable Subject Matter***

Claims 5-18 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach the coupling means having a first and second retainers each having a stem, wherein the stem has a size as to extend through the opening and an enlargement at opposite ends of the stem. The enlargement is sized such that it extends beyond the opening and overlies the body adjacent the opening and in combination with the other elements recited therein.

***Response to Arguments***

Applicant's arguments with respect to claims 1, 3 and 4 have been considered but are moot in view of the new ground of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3632

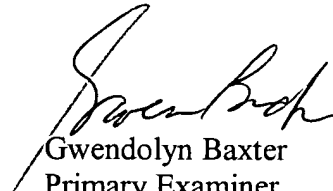

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
